

Service Bulletin

Subject: McDonalds PM Kits

Models: ME & MG Clamshell Grills

▲ Caution

Maintenance and servicing work must be done by authorized service personnel.

▲ Warning

Disconnect electrical supplies before the installation of the kit. Risk of burns from high temperatures. Use extreme caution to avoid coming in contact with hot surfaces. Wear personal protective equipment.

▲ Warning

Improper installation, adjustment, alteration, service or maintenance can cause property damage, injury, or death. Read the installation, operating and maintenance instructions thoroughly before installing or servicing this equipment.

To our Service Partners,

The following is an update to our PM kits used in McDonalds for the ME and MG Next generation Clamshell grills (with Touch Screen Control). The following kit can be used on either ME (Electric grills) or MG (Gas Grills). You may have some of the original kits in stock, do not throw away or try to return them, as you will still use them.

The following Kits apply to ME/G Clamshell Grills based off each model (Number of Platens). The Existing Kit will have a Single asterisk* showing what part was removed. As to the Updated Kit you will have a double asterisk ** to what item/part was added.

To use Existing kits simply order the individual part marked with a double asterisk ** from the Updated Kit list.

The new kit will come with an additional Arm Cover gasket, this is a Hybrid version. This seal will not fit on some older units, so we kept the original seal in the kit. Please do not use both seals for arm cover. *You will also find pictures of each part at end of this document.*

Service Kit PM, ME/G-1P Grills (Single Lane units)

Existing Kit 080000046			Updated Kit 4610073
