

# GRILL CERTIFICATION / PM PROGRAM TRAINING CLASS & INSTALLATION WAIVER

**Waiver:** I hereby acknowledge that participation in the Garland Grill Certification / PM training session does not in itself ensure I am qualified or have the necessary skill sets to perform the Certification / PM Checklist or check / install the grill components in a correct and/or safe manner. I understand that by signing the space provided below, that I am accepting full responsibility for the performance, reliability and safety of the grills and other equipment in the restaurant. I further understand that by signing the space provided below, I am certifying that I have attended the AVO Training Institute, Inc. grill safety certification program and have successfully passed the test for that program.

I further acknowledge that the installation of the Certification / PM kits involves certain risks and may result in serious injury or death.

**I hereby waive all claims, rights or causes of action against the McDonald's Corporation, Enodis, Garland Commercial Industries, their associated network service providers and hold their officers, directors and employees, harmless for personal injury or death, loss of property of any nature or kind, however or whenever sustained.**

I have read the precautionary information and understand it fully.

I also agree not to distribute the Certification / PM kits or any of the associated components to anyone and that all unused/unopened kits should be returned to the Factory Authorized Service Providers.

## Garland Grill Certification / PM And Kit Installations IMPORTANT SAFETY INFORMATION

**DO NOT ATTEMPT TO INSTALL THE COMPONENTS  
IN THE PM KITS BEFORE READING THE  
FOLLOWING:**

**IMPORTANT NOTICE!**  
**AUTHORIZED INSTALLATION PERSONNEL**  
These kits are to be installed by factory authorized servicers or by personnel specifically trained for the installation. Installation of these kits by unauthorized personnel will void any existing warranty on the grill.

**DANGER**  
Improper installation, alteration, adjustment, service, or maintenance can cause property damage, injury, or death. Read these instructions thoroughly before installing the kits.

**DANGER**  
Inspection, testing, and repair of electrical components will expose personnel to the possibility of electric shock. The grill should be unplugged when servicing, except when operational tests are required. Do not attempt to install any parts from the certification kits unless all power to the grill has been disconnected.

The grill must be electrically grounded in accordance with local codes, or in the absence of local codes, with the national electrical code, ANSI/NFPA No. 70. It is equipped with a grounding plug for protection against electric shock hazard and must be plugged into a properly grounded receptacle. Do not alter the grounding plug.

The grill is manufactured for use with the type voltage specified on the rating plate. Do not attach the grill to any electrical power source other than that specified on the rating plate.

**DANGER**  
Use caution when working on the grill to avoid contact with heated surfaces. Contact with heated surfaces can cause severe burns.

**DANGER**  
Do not operate the grill unless all covers and access panels are in place and properly secured.

**BY MY SIGNATURE BELOW I ACKNOWLEDGE AND DO FORMALLY STATE THAT I HAVE READ ALL OF THE ABOVE INFORMATION AND HEREBY AGREE TO THE TERMS AND DETAILS IN THIS WAIVER:**
